TO: Minerals File

FROM: Tony Gallegos, Reclamation Engineer *aa*

RE: Site Inspection, Chimney Rock Resources, Chimney Rock Mine,
S/049/019, [ML45544], Utah County, Utah

Date of Inspection: July 21, 1993
Time of Inspection: 1225 - 1335
Conditions: Partly cloudy, cool
Participants: Steve Powell, Chimney Rock Resources; Tony Gallegos, DOGM

Purpose of Inspection: To evaluate the current status of the mine site.

This site is readily visible from the paved road joining highway 6 and 191. No mining has taken place at this site. No significant disturbance has occurred. Mr. Powell recently had a survey of the site performed in order to generate a map of the site required by Utah County. He agreed to provide the Division with a copy of the new map in the near future. White posts were located throughout the site as part of the survey. Utah County has required a bond for the site at \$1,600 per acre.

Mr. Powell indicated he would be starting the permitting process for the BLM ground in Section 33 which is adjacent to the current permit. He has received approval from the BLM for exploration activities located in Township 11 South, Range 9 East, Section 33, U27-92-09N.
